

Glider Cider

Our flagship cider features aromas of sliced apples, a light sweetness, and fresh apple flavors followed by a hint of tartness. Its all-natural aroma & flavor and dry finish separate it from super sweet mass-market ciders, and make it a pleasant surprise for cider newcomers. To make our most-popular cider, we pick Jonathan, Granny Smith and Golden Delicious apples from Colorado's Western Slope and blend them with a selection of apples from Washington State. The result is a complex but easy drinking cider far removed from the cloyingly sweet, low-alcohol ciders typically found in six packs on store shelves.

Origin story: Why *Glider* cider? The first image was of a classic porch glider and the notion that "motion without effort" was a great tie in for drinking refreshing cider. We think the image of the plane works, but there are many ways to glide: ski, skate or dance. Find your glide and GLIDE ON!

Ingredients: Fresh pressed apple juice, and yeast.
Contains sulfites

4 pack (4 x 12 oz.) bottles
650 ml (22 oz.) bottles

6.5% ABV
Gluten Free

Produced & Bottled by:
